DETAILED ACTION

Reissue Applications

1. The reissue oath/declaration filed with this application is defective because the error which is relied upon to support the reissue application is not an error upon which a reissue can be based. See 37 CFR 1.175(a)(1) and MPEP § 1414. A reissue applicant must acknowledge the existence of an error in the specification, drawings, or claims, which error causes the original patent to be defective. In re Wilder, 736 F.2d 1516, 222 USPQ 369 (Fed. Cir. 1984).

In the reissue oath of April 8th, 2009, applicant states that "In some situations, the reservoir and filter may be not be required." The statement is not sufficient. Note in the last action, where it was stated that applicant should clarify that the claims of the patent were unduly narrow as the inclusion of a reservoir or a filter is not required for patentability.

Response to Amendment

2. Since this is a re-issue application, claims 12-33 added to the patent should be underlined entirely.

Allowable Subject Matter

3. Claims 1-33 are allowed for reasons given in the prior office action.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
